4. Donna Tisdale 5. Bill Parsons 6. Darlene Koczka

7. Chris Noland

COMMUNITY PLAN UPDATE & REVISION:

As part of the County-wide General Plan Update, all community planning and sponsor groups are updating and revising their individual community plans. Community plans help identify and guide community character and future development. The focus of this special meeting is to develop the Background Data Section and the Vision Statement. The County has set a September 30th deadline. The following issues will be addressed in each section:

Background Data Section: History; Relationship to Adjoining Communities; Environmental Setting; Existing Land Uses and Community Character; Existing Circulation and Mobility; Existing Community Facilities and Infrastructure; Public Safety; Trends and Future Projections. The History section was tabled at the September 11th meeting pending inclusion of submissions from group members and the public.

Vision Statement Proposed Changes: The Vision Statement was reviewed, revised and approved at the September 11th Special Meeting. While making the agreed upon changes, it was discovered that several points need further clarification. The proposed changes will be reviewed and action taken.

ADJOURNMENT:
